Northridge High School Textbook for Students in Dual-Credit Courses

For the school year of 2016/2017, any student who is enrolled in a dual credit course listed below must purchase the class book by their own method. The school will not purchase the book or have a rental plan. Even if the student is not taking the class for college credit, each student must locate and purchase the book individually before the start of school.

This purchase plan is being implemented at the request of students and families that want to try to save money by perhaps finding a used text on line or from a student that previously took the class. This also allows the student to keep the text for future reference or to sell the book after the completion of the class. The information listed below is being provided to assist students in finding the correct material. Students are encouraged to pay close attention to the ISBN and edition information. If the student has questions, please contact the teacher of the class or assistant principal Mr. Troyer in the high school office. Students are encouraged to make the purchase early to avoid delays in delivery as students are expected to begin the school year with the required text.

STUDENTS MUST HAVE TEXTBOOK ON THE FIRST DAY OF CLASS

- Ivy Tech: History 101: 11R Survey of American History 1
